tharunprasadm2005@gmail.com | +91 6379161748 | [Linkedin](#) | [Github](#)

SUMMARY

B.Tech graduate in Artificial Intelligence & Data Science with hands-on experience in full-stack development, machine learning, and data analytics. Proficient in Python, Java, JavaScript, Power BI, REST API design, and database architecture. Developed multiple end-to-end projects integrating machine learning with scalable web applications. Passionate about developing efficient, intelligent, and data-driven software solutions.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript
Frontend	React.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, Flask, REST APIs
Database	MongoDB, MySQL
Tools	Git, GitHub, Linux, VS Code, Power BI

PROJECTS

Vellora – Full-Stack MERN E-Commerce Platform

Apr 2026 – May 2026

- Built a complete e-commerce platform with 6 core modules — product catalogue, JWT auth, cart, wishlist, order management, and admin dashboard
- Designed and implemented 15+ modular REST API endpoints with Express.js; optimized MongoDB schemas for efficient querying
- Delivered fully responsive React.js frontend with category navigation, promotional banners, dynamic product discovery, and optimized UI/UX design
- Tech:** MERN Stack, React.js, Node.js, Express.js, MongoDB, JWT, REST APIs, HTML, CSS

AI-Enabled Food Waste Prediction & Donation Management System

Jan 2026 – Mar 2026

- Trained and benchmarked ML models (Random Forest, CatBoost, XGBoost, LightGBM) for food surplus prediction using ensemble learning and evaluation metrics
- Built real-time donor analytics dashboard with Power BI-style data visualization and volunteer assignment module using Flask backend and MySQL relational schema
- Developed end-to-end platform covering donation intake, distribution tracking, and impact reporting with responsive HTML/CSS/JS frontend
- Tech:** Python, scikit-learn, XGBoost, LightGBM, CatBoost, Flask, MySQL, HTML5, CSS3, JavaScript

Bus Route & Schedule Management System (DTC)

Feb 2025 – May 2025

- Built admin dashboard for route creation, schedule management, and user administration using React.js with dynamic component architecture
- Integrated REST APIs with MySQL backend; implemented optimized queries reducing data retrieval complexity for route lookups
- Tech:** React.js, MySQL, REST APIs, HTML, CSS

EDUCATION

B.Tech — Artificial Intelligence and Data Science 2022 – 2026
Dr. Mahalingam College of Engineering and Technology, Pollachi | **CGPA: 7.9 / 10**

Higher Secondary Certificate (HSC) Jun 2022 | 82%
Sri Vidya Mandir Matriculation Higher Secondary School, Rasipuram

Secondary School Leaving Certificate (SSLC) May 2020 | 95%
Sri Vidya Mandir Matriculation Higher Secondary School, Rasipuram

INTERNSHIP

Machine Learning Intern Jun 2024 – Jul 2024

- Frenzo Technologies, Coimbatore
- Developed and optimized supervised ML models (classification & regression) on real-world datasets using Python and scikit-learn
 - Performed end-to-end data pipeline work: preprocessing, feature engineering, model training, and evaluation using accuracy, precision, and recall metrics
 - Generated analytical insights and visual reports using pandas, matplotlib, and Power BI; presented findings to the technical team

CERTIFICATIONS

- Adobe Workfront Foundations — Adobe (Oct 2025)
- Generative AI Certification — Preplnsta (Feb 2026)
- React & Cloud Applications — Preplnsta / Oracle
- Mastering IoT with Arduino & STEM Components — Infosys Springboard
- Workshop: Data Analytics for IoT and Connected Vehicles — PSG College of Engineering & Technology

ACHIEVEMENTS & ACTIVITIES

- Attended workshops on Deep Learning, Power BI, and Data Analytics with hands-on project applications
- Active NSS Volunteer — contributed in community service and campus events
- Presented technical project at departmental showcase — AI-Enabled Food Waste Prediction System
